

Chromebook/Cloud Inclusion in the Music Classroom!
Dr. Fred Kersten
Boston University
Presentation Website <http://fredkersten.com/DEL/DEL1.html>

Clinic Details:

Practical immediately applicable suggestions on how to include the Chromebook and Cloud in the music classroom on site and remotely.

Outline

Valuable relevant information will include:

- How notation, audio editing, recording, music theory and ear-training can be accomplished on the CB through the Cloud.
- Google and the Music Teacher.
- Curriculum presentation tools with CB/Cloud focus.
- Using a CB for video access, creation, and editing.
- Selecting a CB for purchase based on your classroom needs.
- How to replace traditional classroom computers with CBs.
- How to locate and select apps that you can immediately integrate into your music curriculum.
- A Location Library for app selection and quick retrieval.
- Considerations on how in-cloud apps can substitute for standard music software that cannot be loaded on a CB.
- *Working online with your students in a home/school Flipped Classroom Situation.

About the Presenter

Dr. Fred Kersten is currently and has been for ten years an Online Graduate Facilitator for Boston University. He works with graduate music education majors around the world who are completing their masters and doctorate degrees in music education. Presently he is Instructor-In-Charge of online music technology courses offered by BU. Fred holds five degrees in music and music education.
